INTERNATIONAL ATTENDANCE

“

One of the benefits that we liked the most at AGFA was the initiative of the FESPA Printing Leaders Programme. We were delighted that the profile we needed was sought. We liked very much that those who came to visit us were decision makers and from the procurement area, so we are very happy with that.

I highly recommend that you attend FESPA Mexico because you can find different markets, including high volume printers. It is a very good option to grow your business.

”

Ximena Linares

SPONSORS:

I liked the networking opportunities at FESPA Mexico a lot this year. Meeting clients and being able to approach them in a different way through activities that arose in the expo is one of the important things that left us. We will participate at FESPA Mexico again because it is the event that allows us to be in contact with customers and other markets that we are interested in reaching.

SOME EXHIBITORS 2025

We had a very pleasant experience in the event, after a long time of not participating, we got a great surprise, we had a great traffic of people and the experience was very satisfactory. The event was very well focused, in FESPA Mexico we can find clients of all kinds including large companies, we have analyzed the amount of leads generated in the event and will definitely participate again next year.
